1. One 16oz. bottle of Hydrogen Peroxide + one regular size box of baking soda + 3 tablespoons *Dawn* dish soap. Bathe animal with concoction and then rinse well with tap water.
2. Mix mouthwash + dish soap. Bathe animal with concoction and then rinse well with tap water.
3. Mix 1 quart 3% Hydrogen Peroxide, 1/4 cup baking soda, and 1 teaspoon liquid detergent. Bathe animal with concoction and then rinse well with tap water.
4. Tomato juice only works if you bathe dog in it and let pet dry with it on, then rebathe.
5. Bathe pet in a vinegar + water solution or use *Massengill* douches. Bathe animal with concoction and then rinse well with tap water.
6. Dilute *Dawn* dish liquid and use like shampoo to bathe dog. Rinse well. Soak wet dog with undiluted white vinegar (the water-soaked haircoat serves to dilute the vinegar.) Wait 15 minutes, rinse, repeat the bath and the vinegar. Don't rinse the last vinegar application off, towel well.
7. Toothpaste works to get the smell off of your hands.

***Good Luck!***
